FOOTNOTES

1. These are complete systems, add price to base & seat or base only without electronic options.
2. The full line of MKIV specialty controls are available. Contact Customer Service.
3. Cannot use with 1812 compact joystick option.
4. No display needed. Touch Pad incorporates LED display with on-off switch, speed dial and retains light touch proportional control.
5. Qualified ASL dealers only. Only to be used with ASL and stealth system as it includes only a controller and display with switches. No driver input included. For a full range of configurable ASL products see the ASL price lists form #02-097.
6. A joystick assembly with the joystick mount in the front of the box. This version comes with a horn button in front, and a toggle on/off/drive select and speed select dial in the rear.
7. A joystick assembly with the joystick mount in the rear of the box. This is the standard version and comes with a toggle on/off/drive select and a push button horn. No speed select dial.
8. A PSR version with a push button on/off and a push button drive select. No horn and no speed select dial.
9. A PSR version with a toggle on/off/drive select and a speed select dial. No horn.
10. COM12 provides electronic communication ports for interfacing with other devices. COM34 provides electronic communication ports for interfacing with other devices and gives access to five switch closures. Would be needed for computer interfacing.
11. Includes CD for MKIV one2one software and cable that goes from PC serial port to Invacare Virtual Service.

NOTE: All specifications and dimensions are approximate.
